

Aboveground Enclosed Bunded Storage Tanks

The **ENVIROTANK** is a primary storage tank, externally encased within an outer weatherproof bund to ensure any leakage or nominal overflow situation is safely contained.

The **ENVIROTANK** is easily transportable as a one-piece unit and reduces costly and time consuming site work.

The **ENVIROTANK** is delivered by JA Envirotanks transport to the customers premises. If at a later date a new site for the **ENVIROTANK** is required it only has to be emptied of contents, cleaned internally, uplifted and transported to its new location.

Outer bund designed to contain 110% of the inner tank volume.

Inner tank manufactured to BS799 Part 5 from Steel plate to BS EN 10 025:2004:S275.

Compliance with the control of pollution regulations.

Inner tank and outer bund pressure tested.

Envirotank Rectangular
